9TH ANNUAL CONFERENCE

GAMES FOR HEALTH EUROPE

7 & 8 OCTOBER 2019

TAC - TEMPORARY ART CENTRE
EINDHOVEN, THE NETHERLANDS
9th GAMES FOR HEALTH EUROPE CONFERENCE

Dear delegate,

If you let people and computers work together with games - they both become smarter. This is the premise of ‘playful Intelligence’, the central theme of this year’s conference. Our network of bright and highly motivated individuals has yielded a record number of passionate, expert speakers for this year’s #GFHEU19 conference. We have never had such a wonderful cast and your challenge is to pick the right presentations for you from the 90 we have on offer.

This year is our first conference to have the support of the Dutch Ministry of Health, Wellbeing and Sport and the Netherlands Enterprise Agency, part of the Ministry of Economic Affairs. We are delighted to welcome back Secretary General Erik Gerritsen. Erik plays a key role as an ambassador for our industry and his enthusiasm for serious games lit up last year’s conference. We are thrilled that he is back for #GFHEU19.

We are delighted that this year’s conference will witness the launch of a further citizen science initiative. Bernhard van Oranje, the co-founder of Lymph&Co, will be here to launch ‘UNMASK’ a major project in the fight against Lymphoma. It is an honor to welcome Bernhard, and we are so pleased that the #GFHEU19 is the venue for the launch of this very exciting initiative.

A key feature of our conference is the exhibitors, whom we are delighted to welcome back to the expo floor to demonstrate established solutions and new offerings. Past conference visitors have consistently told us that the exhibition area has been a highlight of their attendance. There will be plenty on show again this year to excite and intrigue you.

Last, but by no means least, we are thrilled to have you here. Without your dedication and support there wouldn’t be an annual Games for Health Europe. So, whether this is your first Games for Health, or if you are a ‘frequent flyer’, we are delighted to have you here with us. Interact, be curious, and most of all, have fun. We are sure you will return home satisfied, happy and full of exciting new ideas.

Welcome to #GFHEU19!

On behalf of the entire Games for Health team,

Sandra & Jurriaan van Rijswijk
Treasurer & Founder of the Games for Health Europe Foundation

SESSION ROOM 1
Juliane Leinweber & Jens Ullrich
Trier University of Applied Sciences (DE)
Designing a game-based language learning app for children

Bard Wartena
NHL Stenden University of Applied Sciences (NL)
Participatory design for a behavior change support system towards social skills for children with autism

Shivani Lamba
Brightlobe (UK)
Story above science: the soul of healthcare technology and games for children

Judith Vuyk & Marloes de Ruiter
’s Heeren Loo zorggroep (NL)
My future pictured

Jeroen Boschma
Game Solutions Lab (NL)
Increation

SESSION ROOM 2
Loes Keijzers
Tilburg University (NL)
Measuring real-life emotions and behaviors with Experience Sampling Methods. An opportunity for personalized insights

Egge van der Poel
Erasmus Medical Centre / Jheronimus Academy of Data Science / TIAS Business School (NL)
How Big Data is creating inequality. And why that’s a good thing

Joost Hermans
Game Solutions Lab (NL)
Meaningful data for patients

Benjamin Timmermans
IBM Center for Advanced Studies Benelux (NL)
Learning from disagreement in unskilled crowdsourcing

SESSION ROOM 3
Andressa Pinheiro & João Zaggia
Triunica Gamification (BR)
microGAMElearning

Petar Jerčić
Blekinge Institute of Technology (SE)
From models to measurements of emotions in affective serious games

Dennis Arts & Len Kromkamp
School of Sport Studies, Fontys University of Applied Sciences (NL)
Exploring board games as a tool for envisioning mHealth solutions

Alicja Droszcz & Tomasz Pomorski
OmniChip Sp. z o.o. (PL)
Games for All

Miriam Boer
Antoni van Leeuwenhoek Academy (NL)
Let the games begin!

KEYNOTE

Lisette van Gemert-Pijnen
University of Twente (NL)
Development of a persuasive game to manage wicked problems: One Health Hub
KOSTENBESPARINGEN MET NIEUWE VERDIENMODELLEN

Tijdens de workshop zullen Ingrid Thuis en Thomas Hoyng ingaan op:
- De inhoudelijke opzet van Gezonde Nieren (transmuraal programma)
- De ervaringen die wij de afgelopen 4 jaar tijdens pilots in de regio Amersfoort en Den Bosch hebben opgedaan
- De belemmeringen bij opschaling van een “best practice” gezondheidsprogramma als Gezonde Nieren
- De organisatorische uitdagingen bij een transmuraal gezondheidsprogramma
- De financiële uitdagingen bij opschaling van een transmuraal gezondheidsprogramma
- De mogelijkheid tot het gebruik van een Health Impact Bond voor investeringen in een gezondheidsprogramma

John-Paul van Heel
Rabobank Regio Eindhoven (NL)

Ingrid Thuis & Thomas Hoyng
Gezonde Nieren (NL)

SESSION ROOM 4
DUTCH SPOKEN

RVO: INTERNATIONAL FUNDING OPPORTUNITIES

In this workshop RVO (Netherlands Enterprise Agency) introduces you to the European research and innovation funding landscape. Get acquainted with the funding opportunities, receive tips and tricks, and discuss your ideas with RVO

Niels van Leeuwen
Introduction to the European research and innovation funding landscape (NL)

Michelle Lemmers
Liaison Officer at the Netherlands Enterprise Agency (NL)

Tonnie Rijkers
Senior advisor Life Sciences & Health at the Netherlands Enterprise Agency (NL)

Ruben Wassink
Senior advisor international research and innovation cooperation at the Netherlands Enterprise Agency (NL)

SESSION ROOM 5

ESCAPE ROOM

In de Escape Room leren zorgmedewerkers - op een speelse manier - hoe ze de persoonlijke zorg kunnen leveren die bij de fictieve hoofdpersoon Ria past.

His Highness Prince of Oranje / Founder Lymph&Co (NL)
**Lymph&Co**

**Closing John Harrison**
Prof. Principal Consultant Metis Cognition Ltd. (UK)

**17:00**

**NETWORK & DRINKS**
De financiering van preventie en gezondheidszorg is door het jaar heen op vele congressen onderwerp van gesprek. Alles is Gezondheid, het Nederlands Congres Volksgezondheid, Ucreate, het Institute of Positive Health, Games for Health Europe, en Zelfzorg Ondersteund hebben besloten de handen ineen te slaan. Gezondheid moet gaan lonen!
Tijdens de twee voorgaande congressen is in de Gezonde Rekenkamer de dialoog over het verdienmodel van gezondheid besproken, en is lering getrokken uit de nieuwe verdienmodellen die in de huidige digitale samenleving aan het ontstaan zijn. Het is nu tijd voor een volgende stap: hoe kunnen we het ontstaan van de (digitale) gezondheidsmarkt en daarbij behorende verdienmodellen stimuleren, en tegelijkertijd de publieke belangen van de volksgezondheid en behoefte aan structurele aandacht voor preventie borgen.

Karin van Ruiten
Hoofd Programma Alles is Gezondheid (NL)

Thomas Plochg
Directeur Gezondheids Federatie (NL)

---

Designing UNMASK a citizen science game for the development of a vaccine against Lymphoma. Become a Superhero and UNMASK the evil cells

Karien de Rooij
ZonMw, Lymph&Co (NL)
Workshop Leader

Anke van den Berg
University Medical Centre Groningen (NL)
Finding mistakes in lymphoma cells

Marianne Boes
University Medical Centre Utrecht (NL)
Neoantigens for lymphoma immunotherapy

Victor Peperzak
University Medical Centre Utrecht (NL)
Introduction to his work

Joost Kluiver
University Medical Centre Groningen (NL)
Introduction to research at vaccin for Lymphoma

Miriam Boer
Antoni van Leeuwenhoek Academy (NL)
Let the games begin!

OPENING CONFERENCE HOST

John Harrison  Prof. Principal Consultant Metis Cognition Ltd. (UK)

Marcel Olde Rikkert

Full professor in Geriatrics, Radboud University Medical Center (NL)

Game well! Age well!

Erik Gerritsen

Secretary General at the Ministry of Health, Welfare and Sport (NL)

KEYNOTES

9:30

REGISTRATION & COFFEE

10:30

BREAK & DEMO VISITS

10:45

SESSION ROOM 1

Derek Kuipers

NHL Stenden University AS (NL)

Design for transfer: a novel approach to G4H

Sophie Mobbs

Inland Norway University of Applied Sciences (NO)

Gaming against depression: Using virtual reality immersive game experiences as a life-enhancing and drug-free treatment for elderly patients suffering from profound depression

Samuel Benveniste

Broca Living Lab (FR)

Virtual Diogenes—Virtual reality therapy for hoarding disorder

Elise Klæbo Vonstad

Norwegian University of Science and Technology (NO)

User perspectives on safety, acceptability and feasibility of VR treadmill training for stroke patients

SESSION ROOM 2

Erik Gerritsen

Secretary General at the Ministry of Health, Welfare and Sport (NL)

Het NPA is geen spel, en toch

Jurriaan van Rijswijk

Founder and Chairman Games for Health Europe Foundation (NL)

Spelen is beter dan genezen, een variatie op het thema voorkomen is beter dan genezen

Manon Hillegers

Eramus MC - Sophia Childrens Hospital Rotterdam (NL)

IRIS: vroegsignalering voordat preventie te laat is bij jongeren

Mascha Kamphuis

Landelijk Expertise Centrum Kindermishandeling (LECK) (NL)

Zet in op (zeer) vroeg voorkomen!

Richelle Kosse

Almirall (NL)

App verbetert medicatiegebruik van jonge astma patiënten

SESSION ROOM 3

Gerjanne van Gink

Studio Gerjanne van Gink (NL)

Alzheimer Empathy Collection - ADS-mirror

Manon Junggeburth

Game Solutions Lab (NL)

MatchIt - a game to connect elderly

Liesbeth Bonekamp & Chantal van Kruisdijk

Game Solutions Lab & Coöperation DELA (NL)

Connecting generations - fighting loneliness

Marita Bossers

Plantree (NL)

Improve engagement of staff (our recent experiences with Ria’s Escape Room)

Stijn Frankfoorder

Jaimes (NL)

Millennials & Mental Health: the power of mini-games

12:15
In a time where everyone else seems to do just perfect, this workshop will be the opposite of perfection. It will be raw, honest and vulnerable as a group of passionate young people come together. They will start a real conversation – together with you – about the immense pressure, doubt and anxiety many young people feel. It’s time to take action as more proactive and preventative solutions for mental health is needed.

Maarten Dijk
Motor Kommunikation GmbH- Berlin (DE)

Let’s start the real talk?

Pam Boschma
Antoni Agency (DE)
Young impact

Many years ago the first serious games were more or less tolerated. Today serious games create a revolution in healthcare and society.

In this ideation session we will discuss the future of playful intelligence and serious games.

Rob Tieben
Game Solutions Lab

In de Escape Room leren zorgmedewerkers - op een speelse manier - hoe ze de persoonlijke zorg kunnen leveren die bij de fictieve hoofdpersoon Ria past.

Hoe zou jij willen wonen als je 90 bent. Bestaan verzorgingshuizen dan eigenlijk nog wel? En wat zou je dan de hele dag willen doen? Vragen waar je waarschijnlijk nu nog helemaal niet mee bezig bent. Toch is het belangrijk hier blijf te staan en een blik in de toekomst te werpen. Laten we dit samen doen door te brainstormen en het gesprek aan te gaan over hoe wij oud zouden willen worden.
